

TENNIS COURT PAINT

Premium Quality Tennis Court Dressing

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION PCMN Tennis court paint is a water-based product designed for use on sports surfaces indoors and outdoors. It is highly resistant and skid free. Can also be used for school recreational areas and playgrounds. Can be applied on porous concrete, asphalt and cement.

INTENDED USES Formulated for use on indoors and outdoors tennis court surfaces, indoor gym flooring, playground area, school recreational area or netball surfaces.

PRODUCT INFORMATION

Colour	Red, white & Green
Gloss level	Matt
Volume Solids	65%
Theoretical Coverage	8.0m ² /litre
Drying Time @ 25°C (77°F)	
Touch Dry:	20-30 mins
Hard Dry:	2-3 Hours
Shelf Life	Up to 12 months
Thinner	Water
pH	7.5 – 9.0

SURFACE PREPARATION Allow all new surfaces to dry out completely. Remove all loose or defective paint or powdery residues by thorough brushing and scraping using a stiff fibre brush. All minor defects including larger holes and cracks should be repaired with a mixture of sand and cement. All repaired areas should be watered generously and then the Court should be left for a couple of weeks for complete evaporation of moisture. Make sure there is no appearance of salts on the surface. Treat any areas affected by mould lichens, algae and moss with Bleach. The surface should be rubbed down thoroughly using a suitable abrasive paper and dusted off. The coating should not be exposed to oil, chemicals, or mechanical stress until fully dried.
